Finding:

1713.E.: Based on record review: On 11/22/19, around approximately 11:40am, while supervising a group of children S29 did not devote her time to supervision of the children, meeting the needs of the children, and in participation with the children in their activities; per recorded video footage provided by the Center, S29 was observed with her back to eight 1-year olds for several minutes (3-4 minutes) while the children climbed on tables and play equipment. When S29 did resume active supervision of the children, she did not immediately remove them from the table/equipment to ensure their safety.
