

## Statement of Deficiencies

### 1721.A.-C.: Continuing Education Training

Not Met

1721.A.-C.: A. Early learning centers shall provide opportunities for continuing education of staff members who are left alone with children, or who have supervisory or disciplinary authority over children.

1. Staff members of early learning centers, excluding foster grandparents, shall obtain a minimum of 12 clock hours of continuing education per center anniversary year.

B. Staff members of type I, type II and type III centers who are neither left alone with children, nor have supervisory or disciplinary authority over children, shall obtain a minimum of three clock hours of continuing education in job related topics per center's anniversary year.

C. Continuing education for all types of centers shall be conducted by trainers approved by the department. The department shall keep a registry of approved trainers.

#### Finding:

1721.A.-C. Based on record review/interviews at 5:07 PM, S2 and S3 failed to have a minimum of 12 clock hours of continuing education per center anniversary year. S2 completed 3 hours and S3 did not complete any hours during the center anniversary year. Per S1's statement, she is not sure why S3 does not have the minimum hours and thought that S2 had completed the minimum hours online.

### 1725.A.-C.: Medication Management Training

Not Met

1725.A.-C.: A. All staff members who administer medication shall have medication administration training.

B. Whether the center is administering medication or not, each early learning center shall have at least two staff members trained in medication administration and at least one on the premises. A staff member who is a licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

C. Such training shall be completed every two years with an approved child care health consultant.

#### Finding:

1725.A.-C. Based on record review/interview at 4:45 PM, S1 failed to have at least two staff members trained in medication administration and at least one on the premises whether the center is administering medication or not as evidenced by S1 did not provide proof that the trainings had been completed. Per S1's statement, she and S2 took the medication administration classes on 11/19/2019; however, they were issued incorrect certificates for the training. S1 could not provide proof that she and S2 completed the medication administration prior to specialist departure.
