

## ***Statement of Deficiencies***

### **1915.A.: Health Services - Observation**

**Not Met**

1915.A.: Upon arrival at the center, the physical condition of each child shall be observed for possible signs of illness, infections, bruises or injuries, and when something is observed, it shall be documented and such documentation shall include an explanation from the parent or child.

#### **Finding:**

1915.A. Based on record review at 9:45am, the provider failed to document observations, when something is observed, and noted on children upon arrival to the center. Results including an explanation from parent and/or child were not documented. The last observations and explanations documented were in July 2020. No other observations and explanations were recorded from August 2020 to December 2020. S1 stated that they have been very busy and forgot to document observations.

Corrective Action Plan: Effective 12/11/2020, S1, Director, stated they will put the observation book at the front door of the center with a reminder to document observations. S1 will review to see that observations are being done.
