

Statement of Deficiencies

1725-A.-D.: Medication Management Training

Not Met

- 1725-A.-D.: A. All staff members who administer medication shall have medication administration training.
- B. Whether administering medication or not, each early learning center shall have at least two staff members trained in medication administration.
- C. Such training shall be completed every two years with an approved Child Care Health Consultant.
- D. A licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

Finding:

1725-A.-D. Based on interview/record review: The center failed to have at least two staff members trained in medication administration whether the early learning center administers medication or not. S1 stated that she has attempted to schedule a class but can only find one trainer and all the classes were full before the holidays and the trainer advised her that she will get back with her for the schedule of classes for 2018.
