

## ***Statement of Deficiencies***

### **1723.A.&B.: CPR Certification**

**Not Met**

1723.A.&B.: A. Infant and child CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in infant and child CPR through training approved by the department.

B. Adult CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in adult CPR through training approved by the department.

#### **Finding:**

1723.A.&B. Based on record review at 9:46 am, there failed to be documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children or at least four staff on the premises and accessible to children, whichever is less, had child CPR through training approved by the department. 0 of 4 staff had documentation of this certification. At 9:45 am, S1 arrived at the center, had the certification, but this failed to correct the issue.

Corrective Action: S1 stated that a CPR training has been scheduled for staff for 2/1/2020 at 9:00 am.
